NEM Ontario Highlights

PARTICIPANT EXPERIENCE

“This event helped me to see that there are potential solutions to some of the major problems in the world, and that there are people (and engineers!) that are executing these solutions.”

- University Student

All About NEM2021

Given the reality of Covid-19, in 2021 all NEM Ontario events will be delivered online. We will host a live channel with 3 Zoom events daily, focused on lifelong learning. These may look like panel discussions, workshops with skill building components or networking events, geared for post-secondary students, professionals in our community and interdisciplinary professionals.

We will be synching up with Engineers Canada to promote the following themes:

- Week 1 Engineering + Interdisciplinary Professions
- Week 2 Equity, Diversity & Inclusion
- Week 3 Spotlight on College & University Challenge
- Week 4 Ethics, engineering impact in society, resilience, exploring wicked problems, focus on the future!

Partnership options

NEM2019 engaged 104 organizers who hosted 317 events with 29,727 participants and 2,471 volunteers! Join us in 2021 and have your organization champion engineering and STEM across the Province!

	Leader \$7,500	Champion \$5,000	Ally \$2,500	Advocate \$750
